# **Android – Enable Notifications**

# Introduction

Use this guide to optimize your experience of the HYYP Smart Home App on your Android smart phone.

By default some Android smart phones don't allow the HYYP Home App to start on power up, or to run in the background when the app has been closed. Follow the steps in this guide to enable these features. Please note the pages on your device may be different to our guide's images.

### 1. Android General
