iOS - Remove Saved PIN

Introduction

This document is a quick guide on how to change a save PIN in the HYYP app on iOS (apple) devices

1.Removing Saved PINs

1.1. Remove Saved PIN from Site

The follow steps are to remove the saved 'SITE" PIN code. This PIN code is used to arm / disarm any partitions within a site.

First step is to select (TAP) the site, then TAP on the three dots in the top right. This will display the SITE menu as shown on the right picture. TAP on option 'Edit Site'
